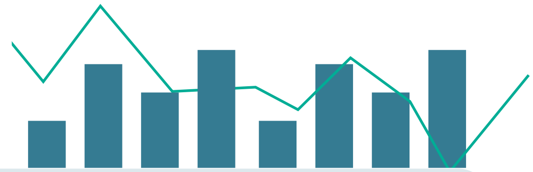
ARTESYS®

A Solution To Help You Reach Your Retirement Goals



It takes a lot of time and attention to manage your retirement account - You may feel you're not exactly on track to reach your retirement goals and unsure if you're maximizing your investment results!

Are You Currently Managing Your Own Investments?

78%

Percent of individuals do not feel comfortable managing their retirement savings.[1]

Successfully managing your own investments requires research, discipline, and attention. Constructing a portfolio that matches your goals, objectives, and tolerance for risk is important - it also means avoiding common behavioral investing mistakes that have proven to cost people returns.

57%

Percent of participants ages 40-70 are holding a target date fund and invested in at least one other investment.[2]

Target Date Funds are a common "do-it-for-me" product available on retirement plans. They are designed to be the only investment held in your account - their lack of both investment transparency and personal customization often leads to mistakes created by investing in additional fund options available on the plan.

-52%

Average investment underperformance by individuals managing their own investments vs. investing in a global index, over 9.5-years.[3]

Did you answer 'Yes' to question above?
You may not be achieving maximum results for how much investment risk you are taking.

Artesys may be able to help you achieve better results than you're getting for yourself - Let Artesys do the work for you!

What Is Artesys?

Artesys is a service offered in the retirement plan that will make the investment decisions for you based on your age, expected retirement date, goals, outside accounts and tolerance for risk.

Artesys determines how to appropriately invest your retirement savings among the investment options available to you and actively manages them as the market environment changes.

ARTESYS®

Tax qualified retirement plans from American United Life Insurance Company® (AUL) are funded by an AUL group annuity contract. While a participant in an annuity contract may benefit from additional investment- and annuity-related benefits under the annuity contract, any tax deferral is provided by the plan and by the annuity contract.

Variable products are sold by prospectus. Both the product prospectus and underlying fund prospectuses can be obtained from your investment professional or by writing to OneAmerica, 433 N. Capitol Ave., Indianapolis, IN 46204, 877-285-3863. Before investing, carefully consider the fund's investment objectives, risks, charges, and expenses. The product prospectus and underlying fund prospectus contain this and other important information. Read the prospectuses carefully before investing.

Investing in registered or variable products involves risks. Money can be lost, and past performance is not necessarily indicative of future performance.

Any investment involves risk, and there is no assurance that the investment objective of any investment option will be achieved. There can be no assurance that the investment objectives of the Artesys portfolios will be achieved or that results will be profitable. Before investing, understand that variable annuities are subject to market risk, including possible loss of principal.

Artesys charges a management fee, but there are no additional fees for the Offensive or Defensive approach.

Artesys – The investment performance shown provides some indication of the risks of investing in Artesys' Model Portfolios. Performance returns shown are those of mutual funds selected by R.T. Jones Capital Equities Management, Inc. ("Adviser") for composites of OneAmerica participant accounts selected by Adviser for each Artesys Model Portfolio. Composites contain all discretionary, fee-paying accounts. Prior to March 31, 2013, advertised performance data is only for a limited number of accounts selected by Adviser based on account balance. Advertised performance data prior to 2010 is only for a proprietary account established by Adviser at Trust Company of America for each Artesys Model Portfolio. No historical performance data exists for OneAmerica composites prior to 2010. Performance of OneAmerica participant accounts may vary slightly depending on the timing and the size of participant cash flows and OneAmerica plan fees. Adviser recommends the same mutual funds to its advisory clients who invest in the Artesys Model Portfolios. For a complete list of mutual funds that comprise each Artesys Model Portfolio and dates of any changes in funds during period shown, please contact us. Performance returns represent actual trading by Adviser. Performance returns were calculated based on total return, using a time-weighted method, and include the reinvestment of dividends and income after deducting fees charged by the Adviser during the period. Performance data prior to March 2012 is shown after deducting Adviser's highest advisory fee. Returns also are shown separately net of all fees described above, after deducting fees, if any, charged by an independent Financial Consultant to an Artesys individual account. Advisory fees are negotiable and transaction costs will vary over time. Mutual funds in which the client's assets may be invested charge their own advisory and other fees as described in each fund's prospectus. Mutual fund performance returns are shown after deducting the funds' fees and expenses. Stock and bond indices shown may have higher returns because stocks and bonds do not pay management fees and operating expenses incurred by mutual funds and exchange-traded funds.

Market Indices - The S&P 500 Index (SP500) is an unmanaged index generally considered to be representative of stock market activity. The Barclays Capital US Aggregate Bond Index (BAgg) is an unmanaged index generally considered to be representative of bond market activity. The MSCI EAFE Index (EAFE) is an unmanaged index generally considered to be representative of international stock market activity. The index performance reflects the reinvestment of dividends and other earnings but does not include any transaction costs, management fees or other costs. Individuals cannot invest directly in these indices.

There can be no assurance that the investment objectives of the Artesys portfolios will be achieved or that investment results will be better than that of a simple buy and hold strategy or that results will be profitable. The information contained herein is for informational purposes only and should not be construed as a recommendation to buy nor as a solicitation to sell.

Although certain information has been obtained from sources believed to be reliable, we do not guarantee its accuracy, completeness or fairness. We have relied upon and assumed without independent verification, the accuracy and completeness of all information available from public sources.

Securities offered through OneAmerica Securities, Inc., member FINRA, SIPC, 433 N. Capitol Ave., Indianapolis, IN 46204, 1-877-285-3863. OneAmerica Securities, Inc. is a wholly owned subsidiary of American United Life Insurance Company®.

Artesys, R.T. Jones Capital Equities Management, Inc. is a SEC Registered Investment Advisor and is wholly owned by R.T. Jones, F.S. Ladner & Associates, Inc. Artesys, R.T. Jones Capital Equities Management, Inc. is not an affiliate of American United Life Insurance Company® (AUL) or OneAmerica Securities and is not a OneAmerica company.

A prospectus is available upon request. Mutual funds are sold by prospectus. Please consider the investment objectives, risks, charges, and expenses carefully before investing. The prospectus, which contains this and other information, can be obtained by calling your financial advisor. Read it carefully before you invest.

Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur.

Confidentiality
